D. LEARNING OUTCOMES (General)

1. have the ability to explain and demonstrate the four fundamental shots in badminton as well as have the ability to explain the rules and scoring of badminton.

2. analyze their own current physical activity behavior and compare it to a national standard such as the 2008 National Physical Activity Guidelines.

3. demonstrate the ability to express their thinking in writing with a one-two page paper in which they compare their current level of physical activity to 2008 National Physical Activity Guidelines for Adults.

4. examine the importance of, i.e how they value regular physical activity in their lifestyle.

5. have the ability to define and explain the various terminology of badminton. The understanding of singles and doubles strategies will be monitored through direct observation of student participation.

6. demonstrate an ability to physically perform the skills required for participation in the sport of badminton. Evaluation will be in the forms of skills test, a rules exam, and a final exam.

7. orally demonstrate the rules of badminton.

8. demonstrate the ability to analyze badminton skills and offer suggestions for improving (problem solve) skill in a beginner.

9. demonstrate safe behavior in the skill target setting and the elements of effective skill execution.

10. demonstrate knowledge and experience the benefits of course's "Skill for Life" as a lifetime skill/physical activity.

11. use their newly acquired knowledge to work collaboratively with an assigned class partner and/or to give quality of performance feedback.

12. develop skills that lead to wellness.
