SOWK 2160: Human Behavior in the Social Environment I

A. COURSE DESCRIPTION

Credits: 3
Lecture Hours/Week: **.*
Lab Hours/Week: **.*
OJT Hours/Week: **.*
Prerequisites: None
Corequisites: None
MnTC Goals: None

Designed to enable students to explain and assess individual, family, and group system behavior as generalist social work practitioners, utilizing the cultural competence continuum and a strengths perspective within an ecosystems approach across the following dimensions: biological, spiritual, psychological, cognitive, socioeconomic, cultural, aesthetic, and gender. Examines traditional and alternate theories of development across the life span of individual, family, and group systems. Attention is given to the influence of paradigms on shaping human behavior. This is the first course in a two-course combination in HBSE, providing the foundation for HBSE II. Prerequisites: BIOL 1110, PSY 1100, and admission to the Social Work program.
