We will study issues such as colonialism, immigration, nationalism and international relations in order to understand how race and ethnicity have shaped the history of the US and how these concepts continue to dictate domestic and international policies.

The course will focus on current social, economic, political circumstances as they relate with race and ethnicity. We will discuss current topics like the changing demographics of people in the US, the nature of racism, movements that oppose racism, and the overall relationship between race, racism, religion, national identity and our chances of happiness in the US.
