Bemidji State University

BIOL 5310: Entomology

A. COURSE DESCRIPTION

Credits: 3
Lecture Hours/Week: 0
Lab Hours/Week: 0
OJT Hours/Week: *
Prerequisites: None
Corequisites: None
MnTC Goals: None
The biology of insects and their importance.

B. COURSE EFFECTIVE DATES: 08/15/2020 - Present

C. OUTLINE OF MAJOR CONTENT AREAS

1. Edible Insects & Culture
2. Flight & Feeding
3. Forensic Entomology
4. Insect Groups
5. Morphology
6. Nervous Circulatory
7. Reproduction
8. Sensory Perception

D. LEARNING OUTCOMES (General)

1. have a better understanding of insect behavior, evolution, defense and mate attraction.
2. have a better understanding of the role insects play in different cultures and forensics.
3. be proficient in using dichotomous keys in order to identify insects to the level of order, family, genus and species.
4. learn the entomological museum technique of insect pinning, preservation, labeling and presentation.
5. learn the basic tenets of insect morphology, anatomy and physiology and sensory perception.
6. understand the life history and reproductive strategies of the major groups of insects.

E. Minnesota Transfer Curriculum Goal Area(s) and Competencies

None

F. LEARNER OUTCOMES ASSESSMENT

As noted on course syllabus

G. SPECIAL INFORMATION

None noted
