MnTC Goals: Goal 06 - Humanities/Fine Arts

This course introduces students to a variety of traditional materials and processes common to sculpture. Hands-on projects expand 3D design concepts and encourage students to develop their creative ideas through additive, subtractive and casting methods. Students will explore contemporary trends and applications, as well as research cultures throughout history. Students will discuss, analyze, and critique their original drawings and 2D design work with a group of their peers using standard critique procedures. [Core Curriculum Goal Area 6]; [BSU Focus: Performance & Participation]
