Students in Musicianship I will develop audiation skills through sightsinging and ear training. In the sightsinging portion of the course, students will use solfège, rhythmic solmization, Curwen hand signs, and conducting gestures to be able to sing increasingly complex melodic and rhythmic elements at sight. In the ear training portion, students will hear decode and transcribe melodic, rhythmic, and harmonic sequences, scales, chord qualities, and intervals. Emphasis is given to pentatonic and diatonic (major) tone sets. Repertoire from Western and non-Western traditions will be included. Completion of this course with a "C" or better is required for all music degrees.
