

Minnesota State University Moorhead

AT 362: Athletic Training Practicum I

A. COURSE DESCRIPTION

Credits: 2

Lecture Hours/Week: 0

Lab Hours/Week: 17

OJT Hours/Week: *.*

Prerequisites: None

Corequisites: None

MnTC Goals: None

Students enrolled in AT 362 will receive supervised clinical education experience in a variety of clinical education settings. Clinical experience settings may include MSUM, local high schools, local junior high schools, sports medicine facilities, and other colleges and universities. This practicum will be taken concurrently with AT 320, AT 322 and AT 322L.

B. COURSE EFFECTIVE DATES: 08/22/2010 - Present

C. OUTLINE OF MAJOR CONTENT AREAS

D. LEARNING OUTCOMES (General)

1. Students will be able to select, apply, evaluate, and modify appropriate standard protective equipment and other custom devices for the patient in order to prevent and/or minimize the risk of injury to the head, torso, spine, and extremities for safe participation on sport and/or physical activity. Effective lines of communication shall be established to elicit and convey information about the patient's situation and the importance of protective devices to prevent and/or minimize injury.
2. Students will demonstrate the ability to develop, implement, and communicate effective policies and procedures to allow safe and efficient physical activity in a variety of environmental conditions. This will include obtaining, interpreting, and recognizing potentially hazardous environmental conditions and making the appropriate recommendations for the patient and/or activity. Effective lines of communication shall be established with the patient, coaches and/or appropriate officials to elicit and convey information about the potential hazard of the environmental condition.
3. Students will demonstrate a musculoskeletal assessment of upper extremity, lower extremity, head/face, and spine for the purpose of identifying (a) common acquired or congenital risk factor that would predispose the patient to injury and (b) a musculoskeletal injury. This includes identification and recommendations for the correction of acquired or congenital risk factors for injury. At conclusion of assessment, student will diagnose patient's condition and determine and apply immediate treatment and/or referral in the management of the condition.
4. Students will demonstrate the ability to manage acute injuries and illnesses. This includes surveying the scene, conducting an initial assessment, utilizing universal precautions, activating the emergency techniques and procedures, conducting a secondary assessment and implementing appropriate first aid techniques and procedures for non-life threatening situations.

E. Minnesota Transfer Curriculum Goal Area(s) and Competencies

None

F. LEARNER OUTCOMES ASSESSMENT

As noted on course syllabus

G. SPECIAL INFORMATION

None noted
