ART 1340: Fundamentals of Color

A. COURSE DESCRIPTION

Credits: 3

Lecture Hours/Week: *.*

Lab Hours/Week: *.*

OJT Hours/Week: *.*

Prerequisites: None

Corequisites: None

MnTC Goals: Goal 06 - Humanities/Fine Arts

The course teaches fundamental color theory by introducing the physical, perceptual, and artistic aspects of color. The dimensions of color are explored through theory and practice using paint and colored papers. Students also are introduced to the theories of the physiology and the psychology of color reception, cultural taste and preferences as they relate to color choices, and the color usage of well known artists, of art movements, and of different world cultures.

Strongly recommend taking Drawing I before this course.

B. COURSE EFFECTIVE DATES: 08/25/2008 - Present

C. OUTLINE OF MAJOR CONTENT AREAS

1. This course teaches fundamental color theory. Students will understand the basic color wheel of hues: primary, secondary and tertiary colors; and how hues interact to create color schemes and harmonies.
2. Students will understand value, saturation and intensity and how it is applied to color. Students will acquire an understanding of these theories by practicing color mixing and application using paints and colored papers.
3. This course also introduces theories of the physiology and the psychology of color reception. Cultural taste and preferences will be discussed as they relate to color choices.
4. Students will examine color usage of well known artists, of art movements and of different world cultures.
