This course provides an in-depth introduction to psychology. Topics may include history of psychology; research methods; physiological psychology; sensation and perception; consciousness; learning; memory; cognition; motivation; emotion; personality; stress, health and coping; abnormal behavior, therapy; social psychology; human development; sexuality; and gender. Students are strongly encouraged to check with an advisor to determine if this is the appropriate course for their degree/program. You must meet prerequisites or obtain instructor permission to take this course.

B. COURSE EFFECTIVE DATES: 01/13/2014 - Present

C. OUTLINE OF MAJOR CONTENT AREAS

1. Topics may include history of psychology, research methods, physiological psychology, sensation and perception, consciousness, learning, memory, motivation and emotion, personality, stress and coping, health and coping, abnormal behavior, therapy, and social psychology.
D. LEARNING OUTCOMES (General)

1. Knowledge Base of Psychology
   Students will demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology (NHCC ELO 1, 2; MnTC 5a, 5b).

2. Research Methods in Psychology
   Students will understand and apply basic research methods in psychology, including research design, data analysis, and interpretation (NHCC ELO 2; MnTC 5a).

3. Critical Thinking Skills in Psychology
   Students will respect and use critical and creative thinking, skeptical inquiry, and, when possible, the scientific approach to solve problems related to behavior and mental processes (NHCC ELO 2, 4; MnTC 5c, 5d).

4. Application of Psychology
   Students will understand and apply psychological principles to personal, social, and organizational issues (NHCC ELO 3, MnTC 5c, 5d).

5. Values in Psychology
   Students will be able to weigh evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of psychology as a discipline (NHCC ELO 3).

6. Information and Technological Literacy
   Students will demonstrate information competence and the ability to use computers and other technology for many purposes ((NHCC ELO 2; MnTc5A).

7. Communication Skills
   Students will be able to communicate effectively in a variety of formats (NHCC ELO 2, 3, MnTC 5d).

8. Sociocultural and International Awareness
   Students will recognize, understand, and respect the complexity of sociocultural and international diversity (NHCC ELO 1, 3; MnTC 5b).

9. Personal Development
   Students will develop insight into their own and others’ behavior and mental processes and apply effective strategies for self-management and self-improvement (NHCC ELO 3, 4).

10. Career Planning and Development
    Students will emerge from the major with realistic ideas about how to implement their psychological knowledge, skills, and values in occupational pursuits in a variety of settings (NHCC ELO 3).

E. Minnesota Transfer Curriculum Goal Area(s) and Competencies
