

Inver Hills Community College

CS 2280: Special Topics in Computer Science

A. COURSE DESCRIPTION

Credits: 1,2,3,4

Lecture Hours/Week: *.*

Lab Hours/Week: 0

OJT Hours/Week: *.*

Prerequisites: None

Corequisites: None

MnTC Goals: None

Studies new emerging computer science topics, languages, systems, applications and problem solving approaches. Specific topics and applications will be determined by the instructor and published in the class schedule. Prereq: Dependent upon the topic presented. Prerequisites will be published in the class schedule. This course may be repeated under different topics.

B. COURSE EFFECTIVE DATES: 08/23/2006 - Present

C. OUTLINE OF MAJOR CONTENT AREAS

1. Will vary with the topic and the instructor

D. LEARNING OUTCOMES (General)

1. Evaluate the usefulness of the material to their specific situation
2. Describe and apply practical aspects and processes related to the specialized topic
3. Distinguish benefits of the new computer science development or application
4. Identify and explain concepts and principles related to the specialized computer science topic

E. Minnesota Transfer Curriculum Goal Area(s) and Competencies

None

F. LEARNER OUTCOMES ASSESSMENT

As noted on course syllabus

G. SPECIAL INFORMATION

None noted
