A. COURSE DESCRIPTION

Credits: 4
Lecture Hours/Week: 4
Lab Hours/Week: 0
OJT Hours/Week: *.*
Prerequisites: None
Corequisites: None
MnTC Goals: None

This course is designed for students to learn the historical perspectives of children and adult mental health, resources that promote mental health, mental health impact on education and development, effect of mental health within families, relationships and communities, and impact of adverse childhood experiences. Students will identify ways to promote well-being and resiliency. Course is designed to raise your knowledge and awareness of the importance with developmental disabilities. These conditions begin during the developmental period, may impact day-to-day functioning, and usually last throughout a person's lifetime.
