Minnesota State College Southeast

ABCT 1496: Specialty Internship

A. COURSE DESCRIPTION

Credits: 4
Lecture Hours/Week: *.*
Lab Hours/Week: *.*
OJT Hours/Week: 12
Prerequisites: None
Corequisites: None
MnTC Goals: None

Specialty internship is designed to provide a real world shop experience before beginning employment in the collision repair industry. Students enrolling in this course will need to secure an auto body industry shop position approved by program instructor and complete all required paperwork with shop manager, instructor, and student signatures. The participating shop must supply a mentor for the internship student who will monitor daily assigned work performing auto collision and body repair tasks. This class is an elective in the final semester of training of the auto body collision technology program. (Prerequisite: Instructor approval) (4 credits: 0 lecture/0 lab/minimum 144 hours internship experience)

B. COURSE EFFECTIVE DATES: 02/23/2015 - Present
