LENF 2690: Emergency Medical Technician - Basic

A. COURSE DESCRIPTION

Credits: 6
Lecture Hours/Week: 8
Lab Hours/Week: 2
OJT Hours/Week: *
Prerequisites: None
Corequisites: None
MnTC Goals: None

This course follows the current National Standard Curriculum, which is a core curriculum presented within a 112-hour training course. The EMT-Basic serves as a vital link in the healthcare chain of survival. This course includes skills and classroom information necessary to provide emergency care at the Basic Life Support level. The EMT-Basic can be utilized in a BLS Ambulance service or other specialized rescue agency. Modules presented include preparation of the EMT-B: airway, patient assessment (medical and trauma), medical/behavioral emergencies and OB/GYN, trauma, infants and children, ambulance operations, and interventions (medications and semi-automatic defibrillation).

B. COURSE EFFECTIVE DATES: 01/01/2000 - Present
