A. COURSE DESCRIPTION

Credits: 2
Lecture Hours/Week: *.*
Lab Hours/Week: *.*
OJT Hours/Week: *.*

Prerequisites:
MELT 2700 - Clinical Phlebotomy I (Number of Years Valid: 3)

Corequisites: None
MnTC Goals: None

This course provides further instruction and study of phlebotomy in a clinical laboratory setting. The learner comprehends and follows procedural guidelines for special phlebotomy procedures. Basic knowledge of point of care testing and laboratory information systems is introduced. Prerequisite: MELT2700.

B. COURSE EFFECTIVE DATES: 06/11/2001 - Present

C. OUTLINE OF MAJOR CONTENT AREAS

1. Apply knowledge of point-of-care testing.
2. Utilize the clinical site's laboratory information system.
3. Apply regulatory measures related to safety, infection control, and patient confidentiality.
4. Assess and prepare special populations for blood and non-blood collections.
5. Explain principles of quality assurance.

D. LEARNING OUTCOMES (General)

1. The learner will demonstrate understanding of special phlebotomy psychomotor competencies.
2. The learner will demonstrate understanding of affective behaviors, along with point-of-care testing and laboratory information systems.

E. Minnesota Transfer Curriculum Goal Area(s) and Competencies

None

F. LEARNER OUTCOMES ASSESSMENT

As noted on course syllabus

G. SPECIAL INFORMATION

None noted
