MnTC Goals: Goal 09 - Ethical/Civic Resp

This course meets Minnesota Transfer Curriculum (MnTC) goal area 9. This course examines the philosophy, politics, and practices of government in the United States. The role of the United States Constitution in the creation and maintenance of democracy and individual liberties provides the course's central and organizing principle; however, the role of political parties, voting participation, and interest groups provide the context for understanding the federal government and making sense of the political scene. The course traces the incorporation of democratic political philosophies, their interpretation through United States Supreme Court decisions, and their impact on day-to-day politics. Specific focus is placed on an understanding of the first three articles of the Constitution: the concept of separation of powers, due process, and equal protection and the First, Fourth, Fifth, and Sixth Amendments. Course content is from lectures, current news sources, the textbook, and the Internet. Prerequisite: College level reading score on a placement test or a minimum grade of "C" in College Prep Reading (READ0900).
