A. COURSE DESCRIPTION

Credits: 2
Lecture Hours/Week: *.*
Lab Hours/Week: *.*
OJT Hours/Week: *.*

Prerequisites:
MELT 1602 - Basic Laboratory Techniques (Number of Years Valid: 3) AND MELT 1606 - Phlebotomy Skills (Number of Years Valid: 3)

Corequisites: None

MnTC Goals: None

This course allows the learner to balance knowledge and theory of phlebotomy with practical experience at a clinic and/or hospital under the direct supervision of a medical laboratory technician or technologist. Emphasis is on roles and responsibilities along with communication and safety needed in providing quality care. Routine venipuncture and capillary sampling techniques are performed according to NCCLS standards. Prerequisite: MELT1602 and MELT1606.

B. COURSE EFFECTIVE DATES: 08/29/2005 - Present

C. OUTLINE OF MAJOR CONTENT AREAS

1. Discuss and comply with clinical site’s safety rules and regulations.
2. Demonstrate acceptable affective behavioral skills.
3. Demonstrate competent phlebotomy technician psychomotor skills.
4. Document procedures/tasks performed at practicum.

D. LEARNING OUTCOMES (General)

1. The learner will demonstrate appropriate affective behaviors.
2. The learner will demonstrate capillary phlebotomy psychomotor competencies.
3. The learner will demonstrate venous phlebotomy psychomotor competencies.

E. Minnesota Transfer Curriculum Goal Area(s) and Competencies

None

F. LEARNER OUTCOMES ASSESSMENT

As noted on course syllabus

G. SPECIAL INFORMATION

None noted
