IDES 1650: Residential Studio

A. COURSE DESCRIPTION

Credits: 3
Lecture Hours/Week: 3
Lab Hours/Week: *
OJT Hours/Week: *
Prerequisites: None
Corequisites: None
MnTC Goals: None

This course is an opportunity for learners to understand their social role as a designer and to develop skills in residential design projects relating to the private residence. Students learn sustainable design issues as well as their social responsibility. Students learn to develop solutions from space planning to product material selecting, and specifying for design projects throughout the house (foyer, living room, dining room, family room, and bedrooms).

B. COURSE EFFECTIVE DATES: 01/12/2009 - Present

C. OUTLINE OF MAJOR CONTENT AREAS

1. Interior designer's role in sustainable interiors.
2. Human factors.
4. Functional layouts for both the public and private areas.
5. Appropriate selection of materials, finishes and furniture.
7. Time documentation.
8. Elements and principles application to interiors.
9. Verbal and visual presentations.

D. LEARNING OUTCOMES (General)

1. The learner will demonstrate their understanding of a designer's social responsibility, develop resources that support a sustainable and socially responsible residential interior and create an interior space that reflects these concepts.
2. The learner will demonstrate understanding of the terminology, standards, and functions associated with residential interior spaces.
3. The learner will gather and analyze information necessary to identify and develop design solutions.
4. The learner will create design solutions for the public and private areas of a residential interior.
