A. COURSE DESCRIPTION

Credits: 2
Lecture Hours/Week: *.*
Lab Hours/Week: 4
OJT Hours/Week: *.*
Prerequisites: None
Corequisites: None
MnTC Goals: None

Participation in the course will ensure establishment of a personal fitness program. Compliance and consistency in implementation of the program are expected, and consequent measurable improvements in personal health and fitness levels will be documented. The course will help students understand the process and procedure of client interaction, and will provide experience in design and application of health/fitness related programs. Personal programs will utilize an established process for program design, demonstrate accepted training principles and methods, help develop a personal philosophy and approach to healthy living and exercise. Compliance will reinforce techniques and mechanics of exercises, as well as provide students with hands-on experience in methods of programming.
