MGEM 1622: Intro to Powersports Fuel Systems

A. COURSE DESCRIPTION

Credits: 3
Lecture Hours/Week: 2
Lab Hours/Week: 1
OJT Hours/Week: *.*

Prerequisites:
This course requires the following prerequisite
   MGEM 1621 - Intro to Powersports Electrical Systems

Corequisites: None

MnTC Goals: None

This course will introduce the student to basic carburetors, fuel pumps and EFI systems used on various powersports equipment. The focus is on component identification and the function of the component in the system. This course also covers the current fuel recommendations and emissions for today's modern powersports equipment. Prerequisite: MGEM1621.

B. COURSE EFFECTIVE DATES: 06/06/2018 - Present

C. OUTLINE OF MAJOR CONTENT AREAS

1. Name the basic carburetor components.
2. Explain types of fuels.
3. Describe carburetor circuits.
4. Explain enrichment systems.
5. Inspect parts for wear.
6. Identify types of fuel pumps
7. Name the basic EFI components
8. Describe the function of EFI components
9. Perform EFI tests using software
10. Evaluate personal working time management.

D. LEARNING OUTCOMES (General)

1. The learner will understand carburetor theory, parts, and fuels for various powersports equipment.
2. The learner will be able to identify various fuel pumps, fuel filters, and understand current emissions standards.
3. The learner will understand fuel injection theory, components, and be able to identify various fuel injection systems.

E. Minnesota Transfer Curriculum Goal Area(s) and Competencies

None

F. LEARNER OUTCOMES ASSESSMENT

As noted on course syllabus
G. SPECIAL INFORMATION

None noted
