Axelindia Technical and Community College

EXSC 1590: Technology in Industry

A. COURSE DESCRIPTION

Credits: 3
Lecture Hours/Week: 3
Lab Hours/Week: 0
OJT Hours/Week: *
Prerequisites: None
Corequisites: None
MnTC Goals: None

Students will explore and apply various technologies used in the fields of exercise science and healthcare. Students will learn to create, format, and edit documents, worksheets, and presentations using Microsoft Word, Excel, and PowerPoint. The course will cover the proper handling and management of client health information and ethical standards related to privacy in information management. Students will also explore the use of wearable exercise technology, industry-specific software, public-facing applications, and social media in the fields of exercise science and healthcare. Upon completion of this course, students will be able to demonstrate effective communication skills in written and oral presentations related to professional conduct and apply critical thinking skills to assess the effectiveness and appropriateness of various technologies in the exercise science and healthcare fields.
