

Minnesota State College Southeast

MEDA 1110: Laboratory Techniques I

A. COURSE DESCRIPTION

Credits: 5

Lecture Hours/Week: 3

Lab Hours/Week: 4

OJT Hours/Week: *.*

Prerequisites: None

Corequisites: None

MnTC Goals: None

: Laboratory Techniques I introduces the student to basic diagnostic procedures commonly performed in a clinic or physician's office. These include but are not limited to: routine urinalysis, electrocardiography (EKG), microbiological testing. It introduces basic collection, specimen preparation, personal protective garb and procedures. Students will pay special attention to blocking the transmission of disease and protection of self and others. The student must demonstrate satisfactory competency in safely completing medical procedures covered to successfully pass the class. (Prerequisites: BIOL 1200, Medical Terminology with a grade of C or higher) (5 credits: 3 lecture/2 lab)
