

Minnesota State College Southeast

MEDA 1210: Laboratory Techniques II

A. COURSE DESCRIPTION

Credits: 5

Lecture Hours/Week: 3

Lab Hours/Week: 4

OJT Hours/Week: *.*

Prerequisites: None

Corequisites: None

MnTC Goals: None

Laboratory Techniques II is a continuation of office laboratory procedures and introduces the student to additional diagnostic procedures including: phlebotomy, hematology procedures, blood chemistries, and other specific laboratory tests performed in a clinic or physician's office. The student will learn the role of surgical assistant in ambulatory care procedures including sanitation, disinfecting, equipment and instrument sterilization. Students will pay special attention to blocking the transmission of disease and protection of self and others. The student must demonstrate satisfactory competency in safely completing assigned medical procedures to successfully pass the class. (Prerequisites: MEDA1110 Laboratory Techniques I with a grade of C or higher and concurrent enrollment in MEDA1205 Clinical Medical Assisting II) (5 credits: 3 lecture/2 lab)

B. COURSE EFFECTIVE DATES: 08/08/2017 - Present
